Ms. Sandhya Devi
Managing Trustee

Message from the Managing trustee

Doing the social work within the society is not new .but the interest in the process of social changing has been growing during some years. There are two important things in behind of this process. One to emergence of information and communication for large part of the civil society to make capable for participate the social mainstream. And knowledge transfer to generation to generation and management for human life creates a historicity. This was full of value and life given forces for strengthening our nation and democracy as a way of peace and justice.

In this context our group started the work by way of spreading mass awareness on education, human rights protection, Dalit and tribal, women rights, health, environment protection , It was yet another year filled with action and learning for EKTA PARISHAD TRUST. The unprecedented challenges posed by the Covid-19 pandemic exacerbated the existing distresses of the Tribal peoples. EPT team remained committed to provide Support to health care and relief for needy poor family.

We as a team had very limited resources to ourselves all we had in plenty was strength, determination, willingness and love for the poor and nation as a whole. But as the time proceeds our work got various recognition and as for now we have various funders and have built a good relationship in the work area.

For all that our trust has achieved would not have been possible without the sincere efforts of all the group members. I hereby, want to thank each and every one who have laid the foundation of this trust and are associated with it. And who are committed to ensuring these collective efforts.

Let us hope that our commitment will not only it enhance our thinking but will creative and effective for a more just society. I look forward to work with the people and for the people and bring substantial changes to improve the conditions towards a better tomorrow. .

Sandhya Devi
Managing Trustee
